

With the Commercial EV Charger Rebate Program, qualified applicants can receive a rebate toward the cost to purchase and install qualifying Level 2 and Level 3 electric vehicle (EV) chargers at workplaces, for light-duty electric fleet vehicles, in public places, or on-street. Chargers must be made available for use by the public or employees of the applicant. Chargers at a private residence are not eligible even if a business is registered at the same address.

Qualified applicants can receive a rebate for up to 50% of the costs to purchase and install eligible chargers, for a maximum of up to \$5,000 per Level 2 charger and up to \$50,000 per Level 3 Direct Current Fast Charger (DCFC). Applicants can apply for up to 5 sites and a maximum of 19 Level 2 chargers and one Level 3 charger.

Level 2 Chargers (3.3 kW to 19.2 kW)	DC Fast Chargers (20 kW to 49 kW)	DC Fast Chargers (50 kW and above)
