SAFE & RELIABLE WIRING DEVICES • OVER 115 YEARS IN THE INDUSTRY

**LEVITON**<sup>®</sup>

# Emergency Preparedness Solutions

## Replacement & Renovation Items

### GFCI Devices

- Current NEC requirements dictate use in areas where water is present
- Reduced depth makes it easier to install in any electrical box

### Lighting Controls

- Available in residential and commercial grade
- Distributed controls, daylighting controls, wireless controls, dimmers, fan speed controls, occupancy/vacancy sensors, relay panels, timer switches and more

### AFCI and AFCI/GFCI Devices

- Arc Fault requirements are now a part of all modern electrical Codes. Their use reduces the chance of electrical fires due to electrical arcing
- Reduces nuisance tripping
- Superior resistance to electrical surges and over-voltages

### Switches

- A staple of any rebuild or renovation. Consider toggle, Decora and new Edge Solution to get the job done quickly

### Decora Smart Devices

- Integrated timer function for use on outdoor lights is key. From there you may want to offer as option for rest of house
- Smart phone operation and Programming
- Switches, Dimmers, Receptacles, Fan Speed, Scene, Plug-in and more

### While-In-Use Covers

- Complies with NEC®
- Required in outdoor locations
- UL listed as "Extra Duty" to mitigate breakage

### Tamper-Resistant Receptacles

- The #1 replacement device associated with flood damage
- Choose duplex, Decora and new Edge Solution to get the job done quickly

### Load Centers

- Optional Internet connectivity
- All plug-on design for fast and easy installation
- Available Smart circuitry enables energy management, firmware updates, remote monitoring, tripping and more
