# Guide Lights and Illuminated Switches

Soft glow enhances safety in the dark.

# A Practical Solution

Simply walking to the bathroom or searching for a light switch in the middle of the night can prove to be dangerous if obstacles such as furniture or toys cause you to trip and fall. Installing Guide Lights and Illuminated Switches in select areas of the home can provide enough illumination at night to light the way or to locate a switch. These devices can serve as a preventative measure to help keep your entire family—from youngest to oldest—safer at night.

Guide Lights and Illuminated Switches contain an internal light that provides illumination when the room/space is dark. They each serve a unique function:

- Guide Lights contain a sensor that monitors the ambient light in a room and will illuminate automatically when a room reaches a certain level of darkness.
- Illuminated Switches glow when they are in the OFF position to make it easy to locate them in a dark room.

Leviton Guide Lights and Illuminated Switches use less than one watt of energy, making them an energy and cost efficient solution.

Options Available	Benefit	Applications
 <p><b>Tamper-Resistant Outlet with Guide Light</b></p>	<p>Perfect for homes with young children. The shutter mechanism inside the outlet blocks access to the contacts unless a two-prong plug is inserted, helping ensure that most foreign objects will be locked out.</p> <p>Provides an automatic night light when the room is dark.</p>	<p>Children's bedrooms, kitchens</p>
 <p><b>Full LED Guide Light</b></p>	<p>Larger light that contains three LEDs. Provides more light in areas where more illumination is necessary.</p>	<p>Hallways, staircases</p>
 <p><b>LED Guide Light with Switch</b></p>	<p>The switch and LED guide light saves space wherever a switch and extra illumination is needed.</p>	<p>Bathrooms, laundry rooms</p>
 <p><b>GFCI with Guide Light</b></p>	<p>This outlet has GFCI protection and the added benefit of a built-in guide light that provides additional light while still allowing use of both outlets.</p> <p>Available in 15 Amp and 20 Amp</p>	<p>Bathrooms, laundry rooms</p>
 <p><b>LED Illuminated Switch</b></p>	<p>LED Illuminated Switch designed for optimal performance with all bulb types, including LEDs and CFLs. White LED light inside the switch provides a refreshed and modern appearance.</p> <p>Decora® model available in single pole, 3-way and 4-way.</p> <p>Toggle model available in single pole and 3-way.</p>	<p>Bathrooms, bedrooms, hallways, staircases, basements, laundry/utility rooms, garages</p>
 <p><b>Illuminated Switch</b></p>	<p>Illuminated rocker switches with classic soft neon glow make finding the light switch in the dark safer and easier.</p> <p>Available in single pole, 3-way and 4-way switches.</p> <p>NOTE: This switch is compatible with incandescent loads only.</p>	<p>Bathrooms, bedrooms, hallways, staircases, basements, laundry/utility rooms, garages</p>
